# CHARITON COURIER.

KEYTESVILLE, MO., THURSDAY, MARCH 1, 1888.

## SLAUGHTER! SLAUGHTER!

### Great Reduction in Prices

#### ON

## WINTER GOODS

For the Next 30 Days at

## Wm. Rosenstein's

### DRY GOODS AND CLOTHING EMPORIUM,

Brunswick, - - - - - Missouri.

## ROOM MUST BE MADE FOR SPRING GOODS.

During the Glahn trial at Paris last November one of the jurors took the measles. After the jury was discharged the jurymen went to his home, near Stoutsville, twelve miles east of there, and at once the measles began to spread north and south from the town and many of the cases have proved fatal. Up to date twenty deaths have been reported. Of the total number of deaths half are grown people, some of them heads of families. Dr. Welch, of Stoutsville, had at one time over one hundred cases within a radius of five miles.—*Macon Times*.

#### Green County Farmers Whipped.

St. Louis, Mo., Feb. 24.—About three miles from Springfield, Mo., the Bald Knobbers resumed their brutal practice of whipping of offending neighbors. The victims of the assault were Albert Adair and his brother-in-law, L. W. Kenworthy, who were called out of their home about 3 o'clock this morning and were pounced upon by five neighbors, whom they recognized, and carried to a tree near the house where they were whipped with hickory switches. To day the five assailants were arrested.

#### Their Business Booming.

Probably no one thing has caused such a general revival of trade at W. C. Gaston & Co.'s drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures, and never disappoints. Coughs, colds, asthma, bronchitis, croup and all throat and lung diseases quickly cured. You can test it before buying, by getting a trial bottle free, large size \$1. Every bottle warranted.

The committee on territories in the lower house of congress have reported favorably a bill looking to the admission of four new states. The territories to be organized into states under this bill are Dakota, Montana, New Mexico and Washington. They cannot get into the Union in time for a vote for president this year, even if the bill becomes a law. The Republican members of the committee are opposed to the measure and will present a minority report.

The *Brunswick*'s statement that a U. S. senator is to be elected by the next legislature of Missouri is certainly a mistake. Three years ago this winter Senator Vest was elected to succeed himself, and last winter Senator Cockrell was re-elected. A senator is elected for six years, hence the next general assembly will not be called upon to perform that duty.

The Great South American Nerve Tonic and Stomach and Liver cure. It is by all odds the most powerful and astonishing cure for disease, all forms of weakness and failing health ever imported into North America. This cures when everything else fails.

#### READ TESTIMONIAL BELOW

Ed. J. Brown, druggist, of Edina, Mo., writes: "My health had been very poor for years, I only weighed 110 pounds when I commenced using 'Nervine Tonic.' I have used two bottles and now weigh 130 pounds, and am much stronger and better than he has been for 5 years. My customers see what it has done for me and buy it eagerly. It gives great satisfaction.

Price 15 cents. Sold by Martin & Applegate, druggists, Keytesville, Mo.

A grove of limes, comprising only four acres and a half, near Sanford, Fla., netted its owner \$12,000 last season.

#### Bucken's Arnica Salve.

The best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by W. C. Gaston & Co.

Chronic nasal catarrh—guaranteed cure—Dr. Sage's Catarrh Remedy.

## CASTORIA

for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. Archer, M.D., 111 So. Oxford St., Brooklyn, N. Y.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhoea, Eruption, Eczema, Worms, gives sleep, and promotes digestion. Without injurious medication.

THE CENTRAL COMPANY, 77 Murray Street, N. Y.

At the meeting of the National Democratic committee in Washington City last Tuesday it was decided to hold the presidential nominating convention at St. Louis, June 5th next. This may be considered quite a victory for St. Louis. New York, Chicago, Cincinnati and San Francisco were all applicants for the convention, but the "Future Great," after a hard fight, captured the prize.

#### A Family Blessing.

Simmons Liver Regulator, the favorite home remedy, is entirely vegetable, and is the purest and best family medicine that is compounded. No error to be feared in administering; no injury from exposure after taking; no loss of time. It is the best preventive medicine and safe to take no matter what the sickness may prove to be, and, in any ordinary disease, will effect a speedy cure. Demand the genuine, having the Z-stamp on wrapper.

ONE W. T. Hearne, of Lee's Summit, Jackson county, Mo., is reported to have raised last year 90 acres of timothy hay from which he sold 180 tons in St. Louis at \$14 and \$15 per ton net, on the cars, or \$28 to \$30 per acre. He says the fall grazing paid him for cutting and housing the hay, and that he did the baling himself. Another evidence that farming pays if rightly conducted.

#### Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

A DISPATCH to the Kansas City *Times* says a block of business houses was destroyed by fire in Coldwater, Kansas, last Thursday, and we regret to learn that our former townsman, J. P. Jones, is one of the sufferers. His stock of goods, valued at \$5,500, was burned, on which he was carrying only \$2,500 insurance.

CONGRESSMAN CHAR. H. MANSUR is proving himself to be a good worker in congress, and judging from the active part he takes in matters of interest to his constituents he will soon rank with the best workers in the house.—*Richmond Democrat*.

Invalids' Hotel and Surgical Institute

of Fifteen Experienced and Skilled Physicians and Surgeons. Patients treated here or at their homes. Many treated at home, through correspondence, as successfully as if here in person. Come and see us, or send ten cents in stamps for our "Invalid Guide-Book," which gives all particulars. Address: World's Dispensary Medical Association, 663 Main St., Buffalo, N. Y.

SINCE the election of 1884 the Democratic party has gained 376,000 votes, as shown by the official figures of the various state elections. The Albany *Argus* tabulates thus: 1884-1886-7. Increase.

Pluralities, Pluralities, 1884-1886-7. Increase. 15 Democratic states.....432,208 693,223 261,015 Pluralities, Pluralities, 1884-1886-7. Decrease.

15 Republican states.....384,733 285,332 99,401

Of the eight remaining states, Florida, Louisiana and West Virginia have had no general election since 1884. Virginia has had no general election since 1884. Virginia increased the plurality of 1884 from 6,141 to 16,034 in 1885, and lost some of the increase in 1887. Indiana at its last state election gave a Republican plurality, but California, Oregon and Rhode Island, Republican in 1884, have since given Democratic pluralities. In these four doubtful states the total of the Republican pluralities of 1884 is 15,311; in the elections of 1886-7 the Democrats overcame this total and had 556 votes over—a gain of 15,867 in the four states. This Democratic gain and Republican loss added to 261,015, the Democratic gains in the fifteen Democratic states, and 99,401, the Republican loss in the fifteen Republican states, make the total gain of 376,000 in Democratic strength up to last fall. Since then Mr. Cleveland's message has been published and the result is seen in the fact that in the only election since held the Republicans lost 7,000 in a single congressional district—though it was one of the strongest Republican districts in the United States.

Among other things concerning cattle, we find the following in last week's issue of the *Rural World*: "What is the outlook then after all this explanation and what has the future in store for breeders and feeders, range men and farmers? Much every way. When things come to the worst they must mend and it is pretty sure they can get no worse than they have been lately. The range country is measurably depleted and the men who engaged in the business without knowledge pretty well weeded out. There is very little surplus cattle to be found anywhere indeed, for last summer's drought compelled many farmers to dispose of what they had for want of fodder; hence taken as a whole there are fewer cattle, feeding or breeding in the country to day, per capita, than there were ten years ago. It is apparent from this then, that for some years to come breeding stock must be in demand and command fairly good prices. We do not look for these in so manifest a degree the coming summer because confidence is not fully restored or the outcome clearly assured or defined. But the grading will begin, and it is predicted, will be followed by a series of years of measurable prosperity. All thoroughbred stock will be esteemed and valued on their grade."

We still hear something occasionally of the Bohemian oats swindle. A farmer in Michigan after learning that he was swindled in his purchase of Bohemian oats, refused to pay the note he had given in the trade. The lower court decided against him. He appealed to the supreme court which reversed the decision of the lower court, on the ground that the contract under which the note was given was fraudulent, and therefore not binding on the defendant. If this decision of the Michigan supreme court is valid, innocent purchasers that have here-tofore sustained the worst of frauds will have to look a "little out" for themselves.

As exchange remarks that it will soon be time for the oats swindle, the patent farm implement and other devices to be getting around. The farmer who reads his home paper and is governed by its timely warnings seldom gets hit by these sharpshooters. If you are not a subscriber now is a good time to begin. You will save more than double the price of the paper before the year is out.

The first shipment of strawberries from Florida was received in St. Louis on St. Valentine's day, and found a purchaser at \$3 per gallon. They were retailed at much higher figures. They were principally used by the millionaire stock holders of the Granite Mountain Mine, for a supper at the Southern Hotel. So says the *Rural World*.

The pistol with which Aaron Burr killed Alexander Hamilton, at Weehawken, N. J., July 11, 1804, is now in the possession of the editor of the *Ripon (Wis.) Commonwealth*. It is very old fashioned, single barreled, of French manufacture and more than a foot long.

The executive committee of the Missouri Press association met in St. Louis last week and arranged for the annual meeting at Warrensburg, June 12th.

Florida people are enjoying roasting ears. In various parts of New England and the northwest frosted ears are all the go.

#### Things a Housekeeper Should Know.

That salt should be eaten with nuts to aid digestion; that milk which stands too long makes bitter butter; that rusty flatirons should be rubbed over with beeswax and laid; that it rests you in sewing to change your position frequently; that a hot, strong lemonade taken at bed-time will break up a bad cold; that tough beef is made tender by lying a few minutes in vinegar-water; that a little soda will relieve sick headache caused by indigestion; that a cup of strong coffee will remove the odor of onions from the breath; that a cup of hot water drunk before meals will prevent nausea and dyspepsia; that well-ventilated bedrooms will prevent morning headaches and lassitude; that one in a faint should be laid on the flat of his back, then loosen his clothes and let him alone; that consumptive night sweats may be arrested by sponging the body nightly in salt water; that a fever patient can be made cool and comfortable by frequent sponging off with soda-water; that to beat eggs quickly add a pinch of salt—salt cools, and cold eggs froth rapidly; that the hair may be kept from falling out after illness by a frequent application to the scalp of sage tea; that you can take out spots from wash goods by rubbing them with the yolk of eggs before washing; that white spots upon tarnished furniture will disappear if you hold a hot plate over them.—*Family Doctor*.

#### Advice to Consumptives.

On the appearance of the first symptoms, as general debility, loss of appetite, pallor, chilly sensations, followed by night-sweats and cough, prompt measures of relief should be taken. Consumption is a scourful disease of the lungs; therefore use the great anti-scorfulous or blood-purifier and strength-restorer, Dr. Pierce's "Golden Medical Discovery." Superior to cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, spitting of blood, and kindred affections it has no equal. Sold by druggists. For Dr. Pierce's treatise on consumption, send 10 cents in stamps. World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

#### More Bank Officials Indicted.

CINCINNATI, O., Feb. 24.—The United States grand jury reported to night and the report is locked up in the safe of Judge Sege's office. It has been admitted by the United States district attorney that the Hon. William Means, late president, and J. R. DeCamp, late cashier, of the Metropolitan national bank have been indicted. What the specific charges in the indictments are have not been made known.

The Southwest Missourians held a convention at Clinton last week for the purpose of encouraging immigration. Governor Morehouse was there and made a speech. Among other good things said by the governor we find the following: "I have had considerable experience in this immigration business, having settled in North-west Missouri more than thirty years ago. I have been identified with the real estate business most of the time and have given considerable time and money to advertising that portion of the state and we have been successful in settling our country with live, energetic citizens who are a source of wealth to the state, and you can, by a judicious system of advertising, do as much for Southwest Missouri. Many persons have passed through Missouri and gone to Kansas, when, if they had stopped with us they would now have comfortable fortunes and would not have been compelled to return to their wives' parents to winter over. I have known many experiences of this kind, and I trust the results of this meeting will be to bring to the notice of home seekers that Southwest Missouri can offer more inducements than any other section of the west to live, energetic people who want homes among as hospitable and Christian a people as there is in any state in the union. I shall be glad to assist you in any way I can in your undertaking, believing thereby great good will be done the state at large."

The sugar trust has just given an exhibition of itself which proves that our greatest danger is not the organization of labor, but the pooling of capital. This sugar trust has ordered one of the largest and oldest refining establishments in the country, together with three smaller ones, to shut down. The proprietors are as docile as a subject of the Czar of Russia would be. They close their doors with a bang and throw hundreds of men out of work in the dead of winter. It is a purely arbitrary act, a bit of despotism which is very exasperating.—*Rural World*.
